

The 'Greens-Turnbull Deception Act'

The Commonwealth Electoral Amendment Act 2016

It's a conspiracy against YOU!

At 3 Million Voices we are certain the new laws significantly violate both the Constitution and the Australian people. These new laws have been introduced to set up a political coup at the next election (an illegal seizure of power). All Australians have a right to know this, and fight back.

The High Court, after examining the Writs, have directed the government to respond to our challenges. The hearing is scheduled for May 2 and 3.

This 'Greens-Turnbull Deception Act' is a dangerous, manipulative and coup effecting law. It was rammed through Parliament for a reason. It is devious and generationally irresponsible. The Greens, Turnbull's Liberals and the Xenophon group all know it. **We want you to know it too!**

Here's what you need to know:

Fact 1: The changes seem good, but the deception is real.

The **Greens-Turnbull-Xenophon alliance** are running a hard-sell, portraying the law as an improvement to democracy. Their explanations are simplistic and deceptive however. It is what you are not being told that holds the danger! Sadly, the mainstream media also seems to be towing their line.

Fact 2: The Constitution (and the population) has been violated.

The **Greens-Turnbull-Xenophon alliance** have violated the Constitution. The **Greens-Turnbull Deception Act** violates Sections 7, 9, 24 and 41 of the Constitution. In May, we believe the High Court will agree.

Fact 3: The laws exploit and further add to existing confusion.

Very few Australians understand the Senate's role or count methods. For decades, successive governments have fortified their power base using laws, marketing, schools and media manipulation. This law exploits and adds to the confusion.

Fact 4: The laws effectively 'bin' 3 million votes.

For reasons too complicated to explain here (see 3MV.net.au to learn more) the new laws will result in the 'exhaustion' of at least 3 million votes (based on the 2013 Federal Election results). If the current swing against major parties continues, the number of 'exhausted' votes will be even greater.

Fact 5: The laws will cement The Greens in the balance of power (for generations) or create an unaccountable and elitist government.

By eliminating votes from the count, independents and minor parties will be effectively barred from the Senate. As a result, unless a new government also wins 51% of the Senate seats, they will be under the whim and command of The Greens.

If a new Government (Labor or Liberal) do win control of the Senate, they will have un-checked freedom to pass any expenditure or laws they want. There will be no checks, transparency or accountability, to the Senate or the people.

Both scenarios will devastate both our nation and future generations. Even those who are devoted Greens, Liberal or Labor voters should see the danger. Absolute power corrupts absolutely. The conspiracy against you is real!

More than 3 million* votes will effectively be tossed in the bin

(*Based on current voting trends).

1. The almost certain consequence of this law is that the Greens will hold the balance of power and the Greens will rule the government.
2. There is little reason to believe this situation will ever change. This is a generational coup.
3. The likelihood of an independent or non-major-party person being elected is so inhibited and unlikely that few will try.
4. Voter desires will be obstructed by instructions designed to confuse and favour the big parties. The confusion will lead to early vote 'exhaustion'.
5. As party dominance of the Senate increases, the power abuses of the 'faceless men' that control party agendas will increase.
6. The anti-democratic strangle-hold of factional politics will increase.
7. To win a seat or be successful as a politician, people will have to join the Labor, Liberal or Greens party. They will need to 'sell their soul' to that party while ignoring the very people or principles they wanted to represent.
8. Only career-politicians will shape our nation. The Senate, designed as a voice of the people, will be populated by 'party-hacks' who have lost touch with voters.
9. The number of golden-handshake Senators will increase; i.e. those appointed to a party Senate seat without being elected.
10. As party power increases, people's representation will be strangled.
